

Good day,

It is with regret that we announce the **postponement** of the 26th Annual FAPT State Safety Skills Competition. The event originally scheduled for the spring of 2009 will now be scheduled for the spring of 2010.

We discussed the financial situations that we all are facing in detail with the FAPT Executive Committee and the Florida Department of Education. We all agreed that it would be in our best interest to postpone our event this year.

Our committee will continue to meet via teleconference to make the necessary plans for the next event. We do encourage every district to continue using our skills events as advanced training. We know some districts use their local competition for district in service points or as a way for drivers to earn incentives in their district.

We would like all districts to contact us if you are holding a local event during this school year. Some of our committee members may want to attend your event. Please feel free to contact us if you need any assistance or information.

We will continue to post updates on the FAPT website at <http://www.faptflorida.org/> We look forward to seeing everyone again in 2010.

Thank you,

Mike Barnett
