**Cc:** Hood, Charlie; Egler, Terri  
**Subject:** Routing Software Survey Response Summary  
*Sent as a blind copy to Florida public school district transportation directors.*

Please see Mr. Walker's summary of the responses to his routing software survey request.

"According to the survey, I had 19 counties respond:

8 districts that use Edulog  
7 districts that use Trapeze  
4 districts that use Versatrans

All counties seemed to be happy with their choice of software although 2 are new clients that haven't had time for a full evaluation.

I would like to thank everyone who responded. It was very helpful.

Thank you,  
Carson Walker  
Transportation Coordinator  
Taylor District Schools"
